Dongguan,2020/07/27

Hereby Lynn Chen manager of Dongguan Weisong Industry Co.,Ltd.declare under our responsibility that we are a factory of masks located in Dongguan.Our masks passed the test report n.2020(F)-0133 and are produced always with high standard of quality. To realize ourmasks we always use same raw materials aswe used per the samples that passed the tests. During Emergency of Covid 19 we got a really huge quantity of orders and to face this situation we added some more line of production. The sewing machine that are used to produce the ourmasks WS-001 (KN95) can make different kind of finishing and different system to add the nose clip but the layers of raw materials are same and the quality was always with the same best standards. We strictly control that all the masks we produced with code WS-001(KN95)always match for quality and tecnology and the same results as on the test report. The different sewing or the different sealing on the edges doesn't have any effect on the standard of ourmasks. Some difference on the look or on the design are absolutely normal and never reduce the standard of quality of the masks. Just for reference we add some picture of our product WS-001 (KN95).

Stamp and signature

A red circular stamp is located at the bottom left of the page. It contains the Chinese characters '东莞市威松实业有限公司' (Dongguan Weisong Industry Co., Ltd.) around the perimeter and a red star in the center. A handwritten signature in black ink is written over the stamp.
